

# NDSBA REQUIRED TEMPLATE MANUAL

## COMPLIANCE WITH STATE AND FEDERAL POLICY MANDATES IS JUST A CLICK AWAY.

**S**tate and federal law requires school districts to adopt policies on a wide variety of topics from discrimination to suspension and expulsion. Determining state and federal policy requirements can be a challenging and time consuming task, requiring in-depth analysis of complex laws and detailed regulations. Policy Services has taken the guess work out of determining the essential components of a school policy manual through the creation of our Required Template Manual. This manual contains all policies mandated by law for public schools and is issued in electronic format allowing districts to comply with law and AdvancED requirements.

After purchasing the required manual, districts have the option of participating in our Policy Access Service for an annual fee. Subscribing districts receive access to all required policies, regulations and exhibits updated by NDSBA Policy Services. This service assists districts with keeping core policies compliant with ever-changing law.

## PRICING\*

\$800 Required Template Manual

\$150 Policy Access Service  
(annual fee)

\*School districts must be members of NDSBA and Policy Services to participate in this program
